(10) As Charity, I want to see a QR code for any reward, so that I can show it to a restaurant for verification.

in list [Completed Work](#)

LABELS

Priority 3 Verification +

Description Edit

Given Bob wants to see a QR code for a reward,
When he clicks on a reward,
Then a QR code is generated using a unique reward id.

Given Bob wants to see a QR code for a reward,
When he clicks on a reward,
Then he sees a card with the reward, a QR code, and instructions on how to redeem the reward.

Tasks

Delete

- (1) Mockup for QR code on rewards page {AC, JJ, JS, TH, TJ}
- (2) Frontend implementation based on mockup (TH)
- (2) Python backend (TH)
- (1) Peer review
- (1) Test Cases

(10) As Ella, I want to verify that a customer has completed a singular goal by entering a QR Code.

in list [Completed Work](#)

LABELS

Priority 3 Verification +

Description Edit

Given Ella wants to verify that a customer has completed a singular goal by entering a QR Code,

When she a customer shows they have completed a goal,
Then she can scan a customer's QR code.

Tasks

- (2) Frontend implementation based on mockup (JS)
- (2) Python backend (JS)
- (1) Peer review {AC}
- (1) Test Cases {JS}
- (1) Mockup {AC, JJ, JS, TH, TJ}
- (1) Unit test {JS}

(7.5) As Bob, I want an interface to view all the redeemed rewards that I have earned per restaurant.

in list [Completed Work](#)

LABELS

Rewards Priority 5 +

Description Edit

Given Bob wants to see one of his previously redeemed rewards
When he clicks on the redeemed tab
Then a list of all of Bob's redeemed rewards appear with the reward title, restaurant name and date redeemed.

Tasks

Delete

- (2) Frontend implementation based on mockup (TH)
- (2) Python backend (TH)
- (0.5) Peer review (TJ)
- (1) Test Cases (TH)
- (1) Mockup {AC, JJ, JS, TH, TJ}
- (1) Unit test (TH)

(7.5) As Bob, I want an interface to view all the un-redeemed rewards that I have earned per restaurant.

in list [Completed Work](#)

LABELS

Rewards Priority 3 +

Description Edit

Given Bob wants to see one of his currently active rewards

When he clicks on the active tab

Then a list of all of Bob's un-redeemed rewards appear with the reward title and restaurant name.

Tasks

Delete

- (2) Frontend implementation based on mockup (TH)
- (2) Python backend (TH)
- (0.5) Peer review (TJ)
- (1) Test Cases (TH)
- (1) Mockup {AC, JJ, JS, TH, TJ}
- (1) Unit test (TH)

(5) As Kelly, I want to see a dropdown menu of all the goals and goal expiration dates I need to complete to achieve a reward when I click on the reward.

in list [Current Work](#)

LABELS

Rewards Priority 3 +

Description Edit

Given I want to see the required goals of a reward
When I click one of the rewards on the goal QR card
Then I see a list of all the goals needed to receive that reward.

Tasks Delete

- (1) Mockup for customer view board page with goal dropdown menu per each reward {AC, JJ, JS, TH, TJ}
- (2) Frontend implementation based on mockup (AC)
- (1) Peer review
- (1) Test Cases (AC)

(5) As Kelly, I want to see that I have completed a goal by having the image on the goal box turn into a green checkmark on the restaurant game board.

in list [Completed Work](#)

LABELS

Priority 3 Goals +

Description Edit

Given that Kelly wants to see that she has completed a goal by having the image on the goal box turn into a green checkmark on the restaurant game board, **when** she has completed a goal, **then** the goal box will change to a green checkmark.

Tasks Delete

- (2) Frontend (TH)
- (2) Python backend (TH)

(10) As Ella, I want to verify that a customer has completed a singular goal by entering a QR Code.

in list [Completed Work](#)

LABELS

Priority 3 Verification +

Description Edit

Given Ella wants to verify that a customer has completed a singular goal by entering a QR Code,
When she a customer shows they have completed a goal,
Then she can scan a customer's OR code.

Tasks

- (2) Frontend implementation based on mockup (JS)
- (2) Python backend (JS)
- (1) Peer review {AC}
- (1) Test Cases {JS}
- (1) Mockup {AC, JJ, JS, TH, TJ}
- (1) Unit test {JS}

(5) As Charity, I want to view a restaurant's profile, including restaurant name, category, description, phone number, picture, and location, so I can learn more about a restaurant.

in list [Current Work](#)

LABELS

View Profile Priority 5 +

Description Edit

Given I want to learn more about a restaurant
When I click "Learn More" for any of the restaurant profiles in the list
Then I will see the profile for that restaurant.
Given I want to return to the list of profiles.
When I click "Back"
Then I will see the list of restaurant profiles again.

Tasks Delete

- (1) Frontend implementation based on mockup (AC)
- (1) Python backend (AC)
- (1) Peer review {}
- (1) Test Cases (AC)
- (1) Unit test {AC}

(4) As Kelly, a customer, I want to “favourite” a restaurant profile from the list of restaurants.

in list [Completed Work](#)

LABELS

Account

Priority 5

+

Description

Edit

Given Kelly wants to “favourite” a restaurant profile from a list of restaurants,
When she clicks on the empty heart icon on the top of a restaurant profile card,
Then the heart icon is filled and the corresponding restaurant is added to her “favourites” for her account.

Tasks

Delete

(1) Frontend implementation based on mockup (TJ)

(1) Python backend (TJ)

(1) Test Cases (TJ)

(1) Unit test (TJ)

(8) As Kelly, a customer, I want to view my “favourite” restaurant profiles on an interface.

in list [Completed Work](#)

LABELS

Account

Priority 5

+

Description

Edit

Given Kelly wants to view her “favourite” restaurant profiles on an interface,
When she clicks on the “View Favourites” button,
Then she is redirected to an interface with only the restaurant profile cards with filled heart icons.
