Sprint 7 Backlog

(5) As Kelly, I want to see a dropdown menu of all the goals I need to complete to achieve a reward when I click on the reward.

in list Current Work

LABELS

`Rewards` `Priority 3` `+`

Description Edit

Given I want to see the required goals of a reward
When I click one of the rewards on the goal QR card
Then I see a list of all the goals needed to receive that reward.

Tasks   Hide completed items   Delete

(1) Mockup for customer view board page with goal dropdown menu per each reward {AC, JJ, JS, TH, TJ}

(2) Frontend implementation based on mockup (AC)

(1) Peer review {JS}

(1) Test Cases {AC}

(10) As Ella, I want to verify that a reward has been redeemed by entering a QR Code.

in list Sprint Backlog

LABELS

`Priority 3` `Verification` `+`

Description Edit

Given Ella wants to verify that a customer has completed a singular reward by entering a QR Code,
When a customer shows they have completed a goal,
Then she can scan a customer's QR code.

Tasks   Delete

(2) Frontend implementation based on mockup (JS)

(2) Python backend (JS)

(1) Peer review (TJ)

(1) Test Cases {JS}

(1) Mockup {AC, JJ, JS, TH, TJ}

(1) Unit test {JS}

(2) Generate code once 5 goals are completed; add corresponding reward to db

(7) As Ella, I want to choose a 3x3, 4x4, or 5x5 bingo board.

in list Backlog

LABELS

`Priority 5` `Expiration Date` `+`

Description Edit

Given I have any size of board set already
When I navigate to the board editor
Then the size is set for me and the board shows the correct layout.

Given I want to change the size of the board
When I select a different size and confirm
Then the board is updated to match the chosen size.

Tasks   Delete

(1) Mockup {AC, JJ, JS, TH, TJ}

(2) Frontend development based on mockup {TH}

(1) Backend updates for handling board size {TH}

(1) Test cases {TH}

(1) Unit tests {TH}

(1) Peer Review {JJ}

(6) As Ella, I want my bingo board to change to my future board when the current board expires.

in list Backlog

LABELS

`Priority 5` `Expiration Date` `+`

Description Edit

Given Ella wants her game board to change to her future board when the current board expires,
When a user logs in and her current game board's expiration date has passed,
Then her current board is replaced by her future board and her future board's expiration date is increased by 90 days.

Tasks   Delete

(3) Python backend (TJ)

(1) Peer review (TH)

(1) Test Cases (TJ)

(1) Unit test (TJ)

(6) As Ella, I want to plan a future bingo board so that my active board will change when the bingo board expiration date has passed

in list Backlog

LABELS

`Priority 5` `Expiration Date` +

Description   Edit

Given I am a new user
When I navigate to the board editor
Then the board is empty and ready for me to populate.

Given I am an old user with previous future board data
When I navigate to the board editor
Then the board is set with my future board data.

Given I am an old user with no previous future board data but have current board data
When I navigate to the board editor
Then my current board data is present but the expiration date is updated to be later in time.

Tasks   Delete

(1) Mockup {AC, JJ, JS, TH, TJ}

(1) Front end updates to board editor {TH}

(1) Backend updates for handling future vs current boards {TH}

(1) Test cases {TH}

(1) Unit tests {TH}

(1) Peer Review {JJ}

---

(6) As Ella, I want to choose an expiration date for my bingo board so that I can provide an incentive for customers to complete goals and achieve rewards before the expiration date.

in list Backlog

LABELS

`Priority 5` `Expiration Date` +

Description   Edit

Given I have already created a board before
When I navigate to the board editor
Then the expiration date is pre-filled for me.

Given I want to change the expiration date of my future board
When I click on the date selector
Then I am allowed to only select dates that are past the current board's expiry date.

Given I want to change the expiration date of my future board
When I select a valid date
Then the chosen date is selected for me.

Tasks   Delete

(1) Mockup {AC, JJ, JS, TH, TJ}

(1) Frontend development based on mockup {TH}

(1) Backend updates for handling expiration dates {TH}

(1) Test cases {TH}

(1) Unit tests {TH}

(1) Peer Review {JJ}

(3.5) As Charity, I want to view different sized game boards and their expiration date.

in list Backlog

LABELS

`Priority 5` `Expiration Date` +

Description   Edit

Given that Charity wants to view different sized game boards and their expiration dates, **when** she clicks "View Game Board", **then** she will see the corresponding 3x3, 4x4, or 5x5 game board and their expiration date.

Tasks   Delete

(2) Frontend implementation (JJ)

(0.5) Peer review {AC}

(1) Test Cases {JJ}

---

(5) As Ella, I want to view my current bingo board and its expiration date.

in list Backlog

LABELS

`Priority 5` `Expiration Date` +

Description   Edit

Given Ella wants to view her current game board and individual goal and reward expiration dates, **when** she clicks on the "View Game Board" button on the Profile page, **then** she will see her current game board its expiration date.

Tasks   Delete

(3) Frontend implementation (JJ)
